April 18th
- 5. Science Fair for The English School:**
April 18th

How to deal with disclosures

Disclosure is the process by which children and young people start to share their experiences of abuse with others

- Remain calm and listen carefully
- Try not to appear shocked or repugnant to the disclosure
- Do not ask leading questions,...an option - "tell me about that?"
- Never promise a student confidentiality
- Report your concern to the DSL and record it on Guard

Why should I report a concern

- At this school, we take safeguarding seriously
- I know our school's procedure
- I know who to pass it to
- I know what is expected of me
- It is my responsibility
- This is serious and important
- A student has trusted me to help them
- The indicators of abuse are present
- Abuse investigations often highlight a failure to act
